GOLF TOURNAMENT

Operating as a registered charity since 2012, Synaptic is the only clinic in Alberta to provide comprehensive out-patient rehabilitation to individuals living with neurological conditions. Filling a critical gap in community-based rehabilitation, we support those living with conditions such as Multiple Sclerosis, Cerebral Palsy and traumatic brain injuries. Synaptic provides: timely access to rehabilitation in the most crucial stages of neuro recovery; innovative therapeutic technology; research, education and resources; and a multidisciplinary client-centered approach to care.

There is a critical need in our community for support for those recovering from or living with neurological conditions and physical disabilities. To help meet this need, Synaptic has teamed up with the Straz Strong Foundation to host the DRIVE golf tournament this coming September. The Straz Strong Foundation aims to improve the quality of life for those with mental and physical disabilities by providing opportunities to access adaptive sports and rehabilitation, as well as to increase social awareness for these disabilities through public speaking and fundraising events.

The DRIVE golf tournament will take place **September 14, 2022** at the beautiful **Heritage Pointe Golf Club** in Heritage Pointe, Alberta. There will be adaptive golf experiences, such as equipment demonstrations and educational opportunities, throughout the event for participants to gain an improved understanding of the impact of physical and neurological disabilities.

With an ambitious **fundraising goal of \$100,000**, the DRIVE golf tournament will not only help to inspire change and develop understanding in our community, it will also make a significant impact in the lives of those who need it most. Your generous support of this tournament will help individuals across the spectrum of care – from rehabilitation to community integration to return to work and recreational activities. All proceeds from the event will go directly into improving the quality of life for individuals with mental or physical disabilities through opportunities to access integrative rehabilitation and adaptive sport and equipment.

This sponsorship package is your invitation to make an investment into our community; you will also gain the opportunity to network with local industry leaders, host clients at a fun and meaningful event, and promote your brand to a local and impactful audience. There are several ways to become involved in this event and we encourage you to review the following packages and connect with us if you have any questions. Help us DRIVE change this September and thank you for your consideration.
