Dear Community Member,

Will you help us create a perfect May weekend when families and friends come together to play and say **a big "thank you" to first responders and community volunteers**. They have and continue to support our communities and activities throughout this past year.

The E3Robotic Center first [E3RC- Palooza](#) weekend was held with great success last May! Our 2022 Palooza is right around the corner. We are, again, asking for your help to make it this May extra special as we, as a community, give a big hug to the ones who assisted us this past year.

We are looking for items to raffle and financial donations to help with the two-day event's costs. Please consider partnering with us by offering a raffle item or [sponsoring](#) one or several volunteers.

Please contact me directly with questions about pick-up instructions. Thank you in advance for your donation.

With Kind Regards,

Patsy Boehler  
Development Director  
E3 Robotics Center  
[pboehler@e3robotics.org](mailto:pboehler@e3robotics.org)

P.S. – Our goal is to have 200 items to raffle by mid-April. Thank you!!!!
