

Who We Are

VSA is made up of retired Veterans, willing citizen volunteers and corporations committed to bettering the lives of those who have Served & Sacrificed for the country they love.

Our goal is to give back to those who have given so very much to protect our fragile freedoms.

We are simply here to Serve our Veterans, to thank our Heroes by sponsoring healthful, invigorating and rewarding therapeutic outdoor adventures, sporting events, and Family activities.

VSA is a network of grateful Americans, business owners, and patriotic companies doing for our American Heroes.

Service K9 Division

Our Service K9 Division trains and donates service dogs to veterans suffering from post-traumatic stress, impaired mobility and other physical injuries. The service dogs assist veterans with daily activities and become part of the veteran's family.

VSA volunteer puppy raisers provide socialization experiences, and obedience training until the puppy is ready to learn service skills that will one day assist a veteran. Qualified veterans and dogs are paired based on needs and skills. Veteran-canine teams continue to receive support through regular contact and training experience.

Our goal is to support the K9 and veteran for the dog's lifetime and facilitate the needs of the veteran to maximize the dog's utility.

You can DONATE directly to the Service K9 Division through our website by typing "K9's" at the Add special instructions to the seller: icon

"I just want to hop in this morning and thank everyone in VSA that helped with getting Bruno and my husband Garrett together. Having Bruno in our lives has been such a blessing, my children have a father and I have my husband back. Thank you again to everyone in VSA for all your help"

- Elise Theel

"The VSA family is nothing but amazing people wanting to say thank you. They are my justification for the sacrifice I have made and I would do it all in a heart beat just to know that I did it for genuine people like my VSA family!"

- Jose Martinez

"The best part of what you guys do is remind us there's still plenty of life to live injured or not. Until yesterday I assumed fishing was going to be a thing of the past for me. Opening that door for me to enjoy something that once gave me such pleasure is something I'm extremely grateful for."
