

# The E3 Robotics Center

Hello Neighbor,

Just imagine this... It is a perfect May weekend when families and friends come together to play and say **a big thank you to essential workers and businesses**. They have and continue to support our communities and us throughout this past year.

Sounds fun, right? I know what you are thinking....organizing a community event in these times can seem a bit risky. Most of us, especially golfers and business owners, understand the concept of risk vs reward. The team at E3 Robotics understands that a fun-filled community event is needed and the reward is far too great. On a side note: We have back-up dates secured should circumstances require.

The fun starts with “Robo-Rama” on Saturday (5/15) , with live entertainment, lots of fun, games and prizes at one of the area’s newest miniature golf facilities. Following up on Sunday afternoon, E3RC will host “The da Vinci Project” a regional golf tournament full of competitive fun, food, freebies, raffles, robots, great trips and cash prizes.

E3Robotics Center is a K-12 STEM not for profit organization focused on exploration, education, and engagement. We recognize the potential in our youth and are working diligently to get kids excited about the technology that exists beyond their “devices”. At the same time, we explore, uncover, and grow the skills and abilities that the community of manufacturers and entrepreneurs, will require in the future.

Like many not for profits, funding is a struggle and it is not different for The E3 Robotics Center. In 2020, many traditional grant opportunities have been redirected towards remote learning, and rightfully so. This has given us the opportunity to focus on the engagement side of our mission. We love our community and appreciate the sacrifices made by everyone. This is our way to teach service and organization to The E3RC students while saying thank you and raising much needed funds.

Enclosed is a list of ways your can show support. Our vision is significant, and we can use your help.

Thank you!

Patsy Boehler
